

HISAR®

Doğal Kaynak Su
Natural Spring Water

OUR MISSION

We work to meet the needs of consumers by offering a variety of drinking water options for every palate. We produce top-quality drinking water in line with health and sustainability principles, keeping customer satisfaction at the highest level, and pioneering sustainability practices in the water industry. While providing our customers with the freshest and healthiest drinking water products, we uphold our commitment to protecting natural resources and the environment.

OUR VISION

We aim to be a leading brand in the water industry worldwide by offering sustainable and healthy drinking water products. While providing our customers with high-quality and delicious drinking water, we are committed to preserving global resources through eco-friendly practices and sustainable production processes, leaving a clean environment for future generations.

We are proud to be **the first sustainable water factory!**

Sustainability is not just a word; it's an action. We carry the responsibility of leaving a green world for future generations. We are taking leaps in protecting our environment by implementing sustainable practices such as waste reduction, recycling, and energy efficiency.

**SUSTAINABLE PRODUCTION,
BRIGHT FUTURE!**

Hisar Natural Spring Water utilizes quartz-layered sources that have thrived in Belgrad Forest since the 1400s. Scientifically proven that the waters filtered through quartz layers are enriched with minerals.

Our sources, located within a natural conservation area, are free from the risk of contamination.

Our source of strength is nature, our dedication is sustainability.

Cutting-edge technology, fully automated production.

Hygiene is the first rule! Production and packaging without human contact.
