

HİSAR®
Doğal Kaynak Su
Natural Spring Water

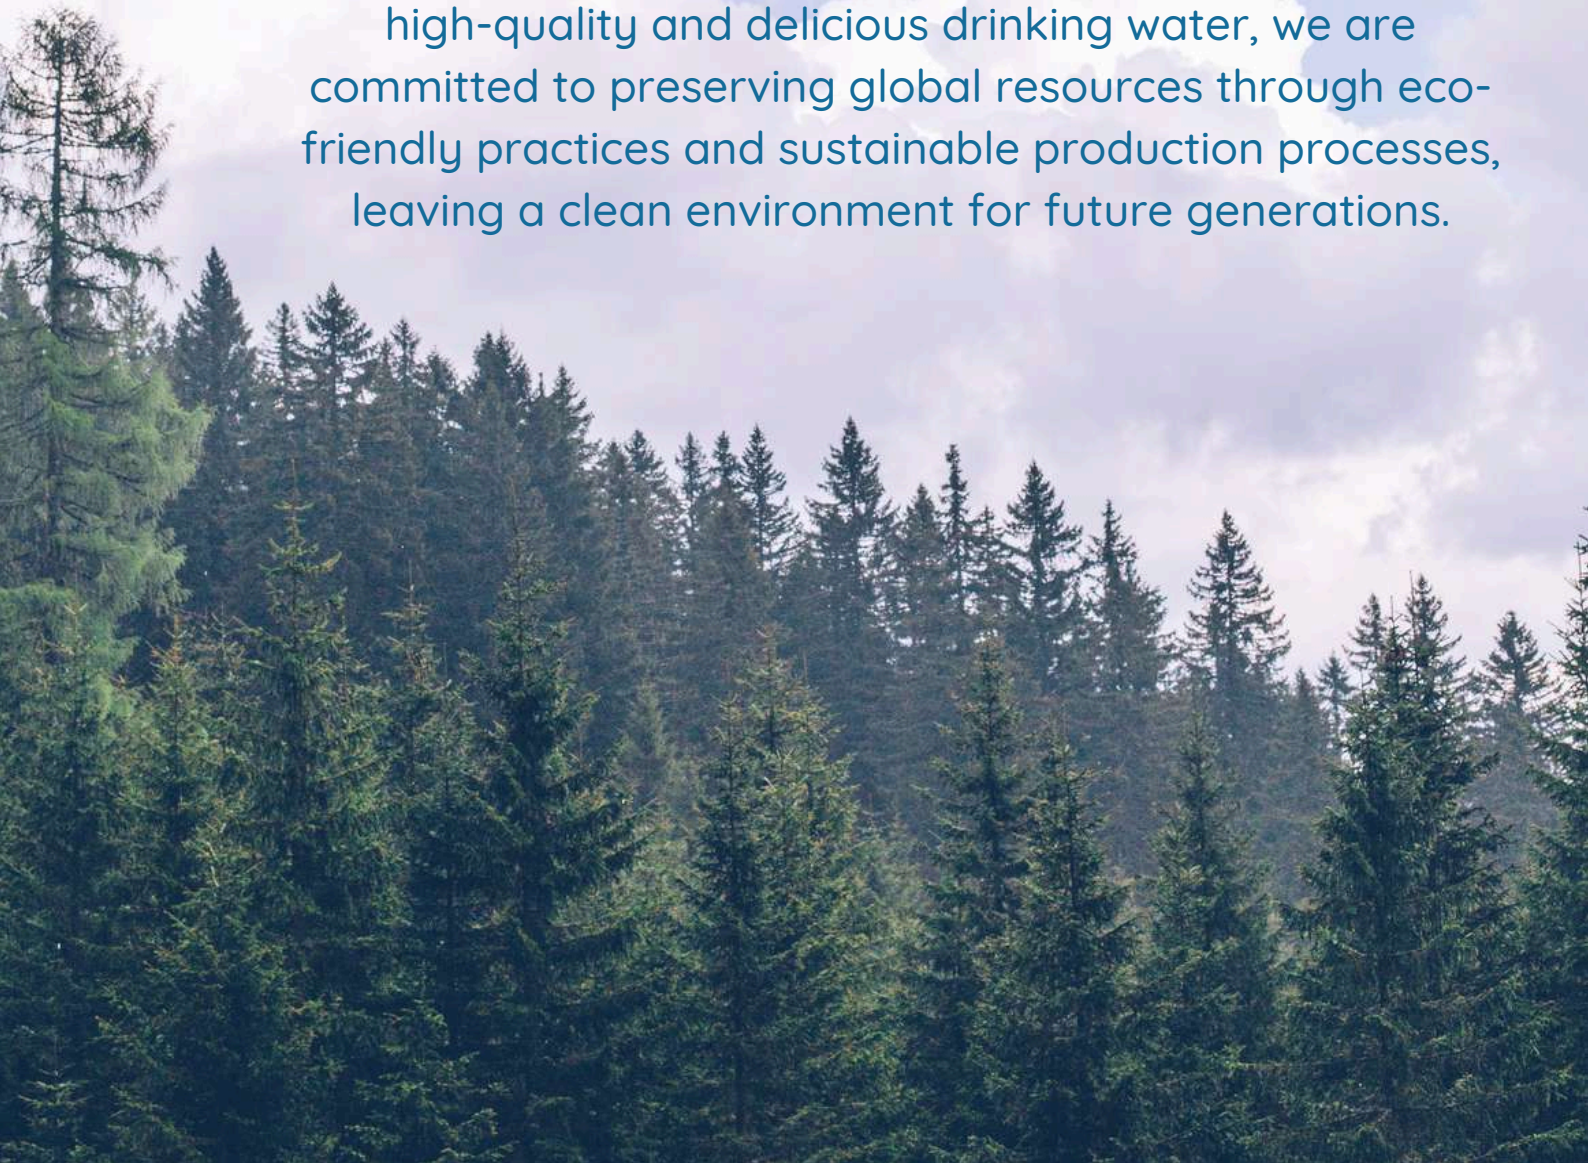

OUR MISSION

We work to meet the needs of consumers by offering a variety of drinking water options for every palate. We produce top-quality drinking water in line with health and sustainability principles, keeping customer satisfaction at the highest level, and pioneering sustainability practices in the water industry. While providing our customers with the freshest and healthiest drinking water products, we uphold our commitment to protecting natural resources and the environment.

OUR VISION

We aim to be a leading brand in the water industry worldwide by offering sustainable and healthy drinking water products. While providing our customers with high-quality and delicious drinking water, we are committed to preserving global resources through eco-friendly practices and sustainable production processes, leaving a clean environment for future generations.

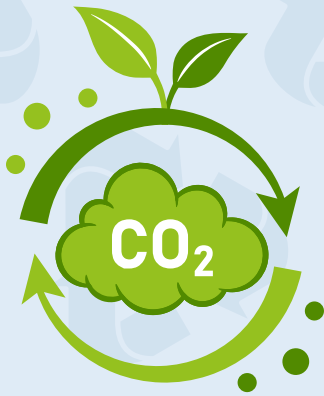

We are proud to be **the first sustainable water factory!**

Sustainability is not just a word; it's an action. We carry the responsibility of leaving a green world for future generations. We are taking leaps in protecting our environment by implementing sustainable practices such as waste reduction, recycling, and energy efficiency.

SUSTAINABLE PRODUCTION, BRIGHT FUTURE!

We have prevented 2,295,000 tons of CO₂ emissions.

We have achieved a saving of 945,000 tons of coal.

We have contributed the equivalent of the carbon absorption of 109 million trees.

With every drop, we deliver not only water, but also a sustainable way of life.

Hisar Natural Spring Water utilizes quartz-layered sources that have thrived in Belgrad Forest since the 1400s. Scientifically proven that the waters filtered through quartz layers are enriched with minerals.

Our sources, located within a natural conservation area, are free from the risk of contamination.

Our source of
strength is nature,
our dedication is
sustainability.

Cutting-edge
technology, fully
automated
production.

Hygiene is the first
rule! Production
and packaging
without human
contact.
